

BEFORE  
THE PUBLIC SERVICE COMMISSION OF  
SOUTH CAROLINA  
DOCKET NO. 95-1088-E - ORDER NO. 95-1378  
JULY 25, 1995

IN RE: Request of Duke Power Company for	)	ORDER APPROVING
Approval of Proposed Changes to	)	MODIFICATION TO
Floodlighting Service FL.	)	FLOODLIGHTING
	)	SCHEDULE

This matter comes before the Public Service Commission of South Carolina (the Commission) on the request of Duke Power Company (Duke) for approval of changes to Duke's Floodlighting Service FL.

According to Duke's filing, Duke offers optional private floodlighting service to primarily non-residential customers under Schedule FL. By its filing, Duke proposes to remove wording from the schedule which states that the floodlighting service is generally not available in residential areas. As justification for removing the language, Duke states that this particular sentence has caused some confusion among customers and employees as there is no clear definition of residential areas. Duke also offers that it has determined there are some appropriate applications for floodlighting in rural residential settings, mixed use areas, and multi-family settings, such as apartment complex lighting. Further, in high crime areas, Duke is receiving requests for floodlighting in both multi-family and single family residential

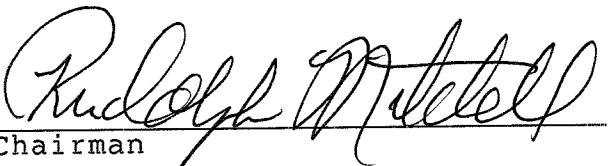

areas, such as apartments and public housing communities. Under its proposal, Duke states that it would still reserve the right to withhold floodlighting service in strictly residential areas where floodlighting is deemed inappropriate.

After review of the proposed language modification to Duke's Floodlighting Schedule FL, the Commission finds and concludes that the proposed modification should be approved. The effective date of the changes shall be the date of this Order.

This Order shall remain in full force and effect until further Order of the Commission.

IT IS SO ORDERED.
